Education

B. Tech (CSE) VIT Bhopal University — **CGPA: 9.04** *Bhopal* — *|2026/05|*
Intermediate, DSB International Public School — **94.4%** *Rishikesh* — *|2022/06|*
High School, DSB International Public School — **97.4%** *Rishikesh* — *|2020/06|*

Skills

Languages: Java, C++, Python, SQL
Web Technologies: HTML, CSS, React.js, Vite, Tailwind CSS
Backend& Database: Supabase, MySQL, MongoDB, Node.js, Express.js
AI/ML: TensorFlow, Scikit-learn, OpenCV, LLMs, RAG, QLoRA, AI Agents
Tools & Platforms: Git, GitHub, VS Code, Vercel, Lucide UI, Radix UI, Artificial Intelligence

Technical Projects

RAJPUT SCOOTY RENT | (React.js, Vite, Tailwind CSS, Supabase, SQL, Vercel).

Spearheaded the development of a responsive rental platform featuring 5+ scooty listings, incorporating booking workflows and WhatsApp integration to enhance user experience

Implemented Supabase database operations and SQL-based pricing logic for rental charges, security deposits, and late fees.

GREENCART | MongoDB, Express.js, React.js, Node.js

Built a full-stack grocery delivery application featuring 20+ grocery products, cart management, order tracking, and JWT authentication.

Integrated RESTful APIs and MongoDB for product data, user authentication, and order management.

ONCO-CAST | Python, TensorFlow, Scikit-learn, OpenCV, Matplotlib

Engineered a CNN-based skin cancer classification model using the HAM10000 dataset, achieving 95% accuracy in project evaluation.

Applied image preprocessing, data augmentation, and dropout regularization to improve model training and generalization.

Extracurricular &Experiences

- **Data Analysis Intern – Prodigy InfoTech**: Completed a one-month remote internship, performing exploratory data analysis (EDA), data visualization, and insight generation using Python Excel.
- **Cooking and Feasting Club**: Core Technical Team Member, : Led event operations and managed logistics for 2+ large scale culinary competitions, enhancing event reach and participant engagement by over 30%.
- **Volunteer – Pahal Initiative**: Taught underprivileged students' basic mathematics and logical reasoning, fostering educational growth and improving numerical understanding for 20+ learners..

Achievements

- **ONCO-CAST:** Coordinated a 5-member team to develop an AI-based skin cancer detection model; acknowledged for technical excellence and contributions to successful project delivery.
- **Multimodal PDF Chatbot:** Spearheaded a 4-member team in developing an NLP-based PDF chatbot; commended for building a scalable solution that streamlined information retrieval from PDF documents.

Certifications

- AWS Solutions Architect – Associate | ETHNUS
- MERN Full Stack Development Certification | ETHNUS
- **AI Engineer Core Track**: LLM Engineering, RAG, QLoRA & AI Agents | Ligancy (Ed Donner) — 33.5 hours

Languages & Hobbies

- **Languages:** English, Hindi
- **Interests:** Cooking, Painting, Technology Trends, Logic Puzzles
- **Core Competencies:** Verbal Communication, Presentation Delivery, Analytical Reasoning
